

ReDoc 7

Hardware Requirements 1-5 user(s)

The following are *minimum* hardware specifications, and were tailored to allow for the use of new hardware. Please contact us for hardware recommendations more specifically tailored for your setting, network infrastructure, and number of users. In general, performance of ReDoc Suite can best be enhanced by additional memory on both the workstations and server, and with fast (high RPM) hard drives on the server.

Stand Alone / Hosting Database—up to 5 users

- Windows XP Professional, or Windows 2000
 - SQL Server 2005 Express Edition, SP 2
 - Pentium Processor or compatible, 2 GHz min
 - 2 gig RAM
 - Monitor with XGA Resolution (1024x768)
 - 4+ gig of free hard disk space
 - High Speed Internet Access (For installation, auto updates and support)
- (Recommended)
- Backup hardware & software
 - Virus scanning utility

Or

Workstation

- Windows XP Professional, or Windows 2000
- Pentium Processor or compatible, 2 GHz min
- 512 RAM
- Monitor with XGA Resolution (1024x768)
- 2+ gig of free hard disk space
- Internet Access/CD-Rom Drive (For installation, auto updates and support)

Server Requirements

Server requirements are dependent on the number of users. The specifications below are based on 1-5 users.

- Windows 2000 Server, Server 2003 Standard, Windows XP Professional (*Small Business Server is supported if Terminal Services is NOT needed*)
 - SQL Server 2000 or higher, SP 2
 - Pentium Processor or compatible, 2.5 GHz or better
 - 2 gig Ram
 - Monitor with XGA Resolution (1024x768)
 - 10+ gigs free hard disk space
 - Internet Access/CD-Rom Drive (For installation, auto updates and support)
- (Recommended)
- Backup hardware & software
 - Virus scanning utility

Microsoft SQL Server

**Microsoft SQL Server is required; below are the supported version/editions.*

- Microsoft SQL Server 2005 Express Edition® SP2
You will be able to download Microsoft SQL Express directly for free in conjunction with installing ReDoc 7
- Microsoft SQL Server 2000 or higher Standard Edition® SP4 ~ recommended for 10+ users
To purchase this version contact your local Microsoft reseller

If tablet PC's are used via terminal services, **MS Windows 2003** OS must be used for handwriting recognition and other unique features of the Windows XP Tablet Edition OS.

Terminal Services or Citrix are recommended for any WAN or low bandwidth connections and for wireless devices depending on environmental conditions.

Printer Recommendations

LaserJet Printers

PLEASE NOTE: THESE VERSIONS ARE NOT SUPPORTED
Windows 98® and Windows NT 4.0® and older version of Microsoft Windows®

ReDoc 7

Hardware Requirements 1-9 user(s)

The following are *minimum* hardware specifications, and were tailored to allow for the use of new hardware. Please contact us for hardware recommendations more specifically tailored for your setting, network infrastructure, and number of users. In general, performance of ReDoc Suite can best be enhanced by additional memory on both the workstations and server, and with fast (high RPM) hard drives on the server.

WorkStation Requirements

- Windows XP Professional, or Windows 2000
- Pentium Processor or compatible, 2 GHz min
- 512 RAM for workstations
- Monitor with XGA Resolution (1024x768)
- 2+ gig of free hard disk space
- High Speed Internet Access (For installation, auto updates and support) (Recommended)
- Virus scanning utility

Server Requirements

Server requirements are dependent on the number of users. The specifications below are based on 1-9 users.

- Windows 2000 Server, Server 2003 Standard, Windows XP Professional (*Small Business Server is supported if Terminal Services is NOT needed*)
- Microsoft SQL Server
- Pentium Processor or compatible, 2.5 GHz or better
- 2 gig Ram
- Monitor with XGA Resolution (1024x768)
- 10+ gigs free hard disk space
- Internet Access/CD-Rom Drive (For installation, auto updates and support) (Recommended)
- Backup hardware & software
- Virus scanning utility

Microsoft SQL Server

**Microsoft SQL Server is required; below are the supported version/editions.*

- Microsoft SQL Server 2005 Express Edition® SP2
You will be able to download Microsoft SQL Express directly for free in conjunction with installing ReDoc 7
- Microsoft SQL Server 2000 or higher Standard Edition® SP4 ~ recommended for 10+ users
To purchase this version contact your local Microsoft reseller

Server Software Requirements

- Windows Installer® 3.1
- Microsoft .NET Framework® 2.0
- Operating System Supported
 - ♦ Windows 2000 Service Pack 4; Windows Server2003 Service Pack 1; Windows XP Service Pack 2

If tablet PC's are used via terminal services, **MS Windows 2003** OS must be used for handwriting recognition and other unique features of the Windows XP Tablet Edition OS.

Terminal Services or Citrix are recommended for any WAN or low bandwidth connections and for wireless devices depending on environmental conditions.

Printer Recommendations

LaserJet Printers
